as we were bettere with South Carolina, if I can belp it (Chaera.) Letno man misunderstand me: and I repeat
it lest it might be understood. I do not mead
to give up a single inch of the soll of South
Carolina. It I had been after at that time,
and had the position and the sollint; I would
have dealt with South Carolina as Jackson
did, and kept her in at all hazards. But now
she has gone out; and I will take care that
when she comes in again she will come in
hetter behaved. [Langiter and cheera.] I will
take care that she shall be no longer the frebrand of the Union-ays, and that she shall
cajor what her people never yet have enjoyed,
the blessings of a Republican form of government. [Cheera.] Therefore, in that view, I
am not for the reconstruction of the Union si
lives. I have spent tears and blood enough on
it, in conjunction with my fithes elitson, to
make it a little better. It was good enough for
the swip year, I propose, when we robudel it, to
build if up with all the modern improvements.
[Enthusiastic applants.]

HOW THE CONTEST IS TO IND.

There are but itwo ways in which this contest can be ended. One is by re-revolution,
ising a given portion of their territory and
have them come and sak to be admitted into
the Union. Another is to being it all back,
or that part of it which does not come back
in the first way, bound to the triumphal car
of victory. [Cheera.] There is not witchery
shout this. This precise thing has been done
in the case of west Virginia. She asked to
come back and has been received back, and
whe is the entering wedge of that series of
Sintes witch will come back that way. But
if they do not come back that way. But

leave the same feeling in the case of these

A Scare at Columbus THE YAZOO EXPEDITION.

[Special Dispatch to the Chicago Tribuna.]
Causo, April 4, 1983.
By the arrival of the steamer Bostons No. 2,
we have news from Young's Point to Tuesday night, per steamer Empress at Memphis
on Thursday.
It is stated upon the authority of scouts

A heavy battery has also been erected on the flata below and opposite the mouth of the cand, at a high elevation, commanding operations there, which have been actively in use. Digging and dredging are nearly asspended. Last Monday night, during an excessively severe storm of wind and rain, the Confederate gunboat Vicksburg, against which the Queen of the West tried the powers unsuccessfully, broke from her moorlags, and before

commenced on Wednesday.

The most startling festure of the Southern news is the reported formation of a Southern peace party, by Henry S. Foste, Alex. Mosely, editor of the Richmond Whig, and others. The Enquirer, edited by John Mitchell, denounces it. The Enquirer's course is disapproved by many leading men, and by Congress, probely. Resolutions upon the sub-

struck before June roses bloom, which will unfetter the long manacled Kentuckians. There are rumors in Cairo of iste fighting on the Tennessee River, in which it is said one Federal gunboat was disabled. This is from Parties from Hickman, Ky., report anot

raries from reasons, av., report some care in that vicinity. There may be some thing in it. The story is that a scout came into Columbus at 3 o'clock this morning, re-porting to Gen. Asboth that 700 rebels, sup-posed to be Ashby's band, were discovered sterday between Union City and Hickman rehing then towards the latter, with the marching then towards the latter, with the in-tention of taking possession of the place. At 6 a.m., Gen. Asboth had 500 or 800 men, upon a steamer and started for Hickman. 300 were sent from Clinton, and a large force was in line, ready to go when the Planet passed. Columbus. Capt. T. C. Meatyard, late of the 97th Illiois regiment, has been appointed by the resident Assistant Adjutant General, with

ments, in the name of the people of the States therefore.

It also gives me great pride and satisfaction to do so, from the fact that I regard the victory at Arkanasa Poet, gained under the able and sare getic generalship of a distinguished oddoor and citizen of fillinois, as second in the production of the second of the s orders to report ta Gen. Buford for duty. E is new officialing at Cairo.

Above Vicusouse, March W. 1800, The failure of Admiral Porter's expedition The fallure of Admiral Porter's expedition through Steele's Bayon, for the purpose of re-entering the Yazoo to attack Halbes' Biaff in the rear, involves the fallure of the Yazoo Paiss expedition, which, when last heard from, had reached the junction of the Tallahatchie and Yallabansha rivers, and was enguging the Greenwood batteries. This expedition has been ordered back by Admiral Porter, since Richam Yarra, Governor.

Rebel Contempt for the Commecticus Copperhends.

[From the Richasoul Enquirer, 20th.]

No State in all the enemy's country was more furiously into the crasade for our subjugation and ruin than that community of chekmakers, pediers and schoolmarma. Not it seems an election is to some of amongs those folks on the 1st of April, on whose income perhaps will dispend other elections in other States, and to which, accordingly, the maxious eyes of all Northern erashers of the rebellion are directed. A Democratic Convention in Connecticut has no miniated for Governor a Mr. Seymour, and in one of its resolutions declares that the time has now sirved when all true lovess of the Constitution are resedy to shanden the monstrous falling that the Union can be restored by the arms hand alone. So much they have found out but they think they know another way to restore the Union, as appears from Mr. Seymour's own speech during the canvass.

It then quoice from Mr. Seymour's speech sisting that the Union could not be restored by force of arms but by the force of reason and continues:

"Whose peeple having any good cause to vin

take Vicksburg in the rear, from above, has been thrown away.

Particumpers, April sih, 1985.

A special to the Bulletis from Cincinnati today says that the sitack on Fort Femberion recommenced on the 27th ult. by the gunbosis Baron DeKalb and Chillicothe, The result is not known. Indications point to the shandonment of the Fasso Pass Expedition. A fleet of twelve transports just out of the Pass were ordered to return empty. There are over three hundred boats at Young's Point. Point.

The hombardment of Vicksburg by Gen.
Grant, which was to have commenced on the
27th, was postponed in consequence of the
storm.

Grant April 4, 1983.

Out news from below this morning fully confirms my report of yesterday, that all the several expeditions were returning to Young's Point. That down the Yasoo Pass had not reached the Misalesippl yet, but it doubtless will as soon as possible.

The steamer Lebanon arrived from Greenwood this morning. Her guards are nearly all torn away, and her upper works generally are much danaged. There is a large hole in her amoke stack, made by the limb of a tree.

Tugs pass in and out of Lake Providence, but the current is yet too strong for transports.
